

Your lesson today is to read Thomas, section 16.3, through Example 3. Your homework for today is

- Thomas §16.3 # 1, 2, 7, 8, 9, 19, 25

The bit about exact differential forms is somewhat traditional, so let's read that tomorrow.

After you have done your homework, indicate that you have done so with this checkin:

0331 Vector Calculus Checkin

We will have a optional scheduled Microsoft Teams meeting every Wednesday at 11 AM. I will send an invite on the Chat Room channel, you may attend if you wish. This is just an opportunity for you to ask questions (group tutoring).
