

CATEGORY THEORY  
DR. PAUL L. BAILEY

Lesson 0416  
Thursday, April 16, 2020

Please continue to work on these problems:

- Chapter 21 # 5, 7, 15, 23, 35
- Chapter 22 # 2, 4, 9, 19, 20

Additionally - think of a good question. It could be how to do a certain problem, or some aspect of the theory which is unclear, or perhaps a fuzzy spot in a proof or example. Or, it could be what comes after a certain idea, why was that idea being introduced, and so forth.

I will initiate another conference call on Friday, April 17, at 2 P.M.
