

VECTOR CALCULUS
DR. PAUL L. BAILEY

Lesson 0424
Friday, April 24, 2020

Good Morning! I think this should be the final lesson for our forced foray in distance learning. I'm sorry that we did not get to Stoke's Theorem, but I am very pleased with how much you all have learned.

There were a couple issues with your quiz yesterday, I will post solutions over the weekend.

Your assignment for the rest of the course is a final project, Q0430 in document `QVectx0430.pdf`.

I give you a last chance to comment at

0424 Vector Calculus Checkin

Stay safe, stay strong, have a great summer if possible.

Sincerely, Dr. Bailey
