

Information from the College Board

The AP Calculus AB online exam is scheduled for Tuesday, May 12, at 11:00 AM Pacific Daylight Time, which is the same as Mountain Standard Time, which is also known as Constant Arizona Time. Students will have 25 minutes to read and respond to Question 1, and then 5 minutes to upload their response. After uploading the response to Question 1, students will have 15 minutes to respond to Question 2, with 5 additional minutes to upload their response to Question 2. Once their response to Question 1 has been submitted, they cannot go back to it.

I received this additional information from College Board.

Encourage your students to review their contact information. We're communicating with the AP community primarily by email. To ensure your students are receiving critical information, make sure they log in to My AP to remind themselves of the email address and cell phone number they've asked the College Board to use. If they want, students can change how we contact them. Two days before each exam, students will receive an email with a personalized e-ticket that will include their eight-character AP ID code. If a student still doesn't receive the email, they'll be able to access their e-ticket directly through My AP.

Today's assignment

- Check out the new AP Testing Guide 2020.
- Read responses in RCalABx0430.pdf.
- Read solutions to yesterday's homework H0429 at HCalABx0429_SolutionsPlus.
- Look at H0429d in HCalABx0429d.pdf. I will go over this problem at at 10:00 AM in a Microsoft Teams meeting.
- Look at H0429e in HCalABx0429e.pdf. I will go over this problem at at 1:00 PM in a Microsoft Teams meeting.
- Checkin:
