

Information from the College Board

The AP Calculus AB online exam is scheduled for Tuesday, May 12, at 11:00 AM Pacific Daylight Time, which is the same as Mountain Standard Time, which is also known as Constant Arizona Time. Students will have 25 minutes to read and respond to Question 1, and then 5 minutes to upload their response. After uploading the response to Question 1, students will have 15 minutes to respond to Question 2, with 5 additional minutes to upload their response to Question 2. Once their response to Question 1 has been submitted, they cannot go back to it.

I received this additional information from College Board.

Encourage your students to review their contact information. We're communicating with the AP community primarily by email. To ensure your students are receiving critical information, make sure they log in to My AP to remind themselves of the email address and cell phone number they've asked the College Board to use. If they want, students can change how we contact them. Two days before each exam, students will receive an email with a personalized e-ticket that will include their eight-character AP ID code. If a student still doesn't receive the email, they'll be able to access their e-ticket directly through My AP.

Today's assignment

- I have completed grading your mock examination E0429 in AP Classroom. Please sign on and review the comments.
- The first problem on the mock is locked down. The second has been released for this year. It is in document ECalABx0429p2.pdf. I will initiate a Microsoft Teams meeting today at 10:00 AM to go over this problem.
- Please answer the important question at

0501 AP Calculus AB Checkin

- Take the rest of this weekend and relax.

I will be grading more of your work over the weekend for the purpose of supplying feedback. Our class will continue until the AP examination on May 12. Please continue to work on all assignments, it will pay off!
