Information from the College Board

The AP Computer Science A online exam is scheduled for Friday, May 15, at 1:00 PM Pacific Time.

Students will have 25 minutes to read and respond to Question 1, and then 5 minutes to upload their response. After uploading the response to Question 1, students will have 15 minutes to respond to Question 2, with 5 additional minutes to upload their response to Question 2. Once their response to Question 1 has been submitted, they cannot go back to it.

Question 1 will cover Arrays and/or ArrayLists, Question 2 will cover Methods and Control Structures.

I received this additional information from College Board.

Encourage your students to review their contact information. We're communicating with the AP community primarily by email. To ensure your students are receiving critical information, make sure they log in to My AP to remind themselves of the email address and cell phone number they've asked the College Board to use. If they want, students can change how we contact them. Two days before each exam, students will receive an email with a personalized e-ticket that will include their eight-character AP ID code. If a student still doesn't receive the email, they'll be able to access their e-ticket directly through My AP.

Today's assignment

Hello everyone. Our trimester is over, and I will continue to assign practice problems for my two AP classes. I have been grading on the weekend but I will try to give more timely feedback this week. Please do the assignments as expeditiously as you can, so as to receive this feedback. I will continue to make these checkin forms, so as to allow you to give me feedback.

Your assignment for today is:

- Work on H0504 in `HCScix0504.pdf`. Upload your solution into Microsoft teams as soon as you can.

- Checkin at
