

Information from the College Board

The AP Calculus AB online exam is scheduled for Tuesday, May 12, at 11:00 AM Pacific Daylight Time, which is the same as Mountain Standard Time, which is also known as Constant Arizona Time. Students will have 25 minutes to read and respond to Question 1, and then 5 minutes to upload their response. After uploading the response to Question 1, students will have 15 minutes to respond to Question 2, with 5 additional minutes to upload their response to Question 2. Once their response to Question 1 has been submitted, they cannot go back to it.

I received this additional information from College Board.

Encourage your students to review their contact information. We're communicating with the AP community primarily by email. To ensure your students are receiving critical information, make sure they log in to My AP to remind themselves of the email address and cell phone number they've asked the College Board to use. If they want, students can change how we contact them. Two days before each exam, students will receive an email with a personalized e-ticket that will include their eight-character AP ID code. If a student still doesn't receive the email, they'll be able to access their e-ticket directly through My AP.

Today's assignment

Hello everyone. Our trimester is over, and I will continue to assign practice problems for my two AP classes. I have been grading on the weekend but I will try to give more timely feedback this week. Please do the assignments as expeditiously as you can, so as to receive this feedback. I will continue to make these checkin forms, so as to allow you to give me feedback.

- Your practice problems for today review the Three Great VT's: IVT, EVT, and MVT. Please access H0504 in file HCa1ABx0504.pdf and do your best. I will initiate a conference call in Microsoft Teams Chatroom at 1:00 PM today to go over these problems.
- Please sign up for at least one of the teleconferences this week:

AP Calculus AB Teleconference Signin Sheet

Access the teleconference as a Meeting in Microsoft Teams in the Chatroom channel at the appropriate time. We will continue to go over the main types of AP problems you may see. If no one signs up, we will cancel the meeting.
