AP COMPUTER SCIENCE   Lesson 0505
DR. PAUL L. BAILEY   Tuesday, May 5, 2020

Information from the College Board

The AP Computer Science A online exam is scheduled for Friday, May 15, at 1:00 PM Pacific Time.

Students will have 25 minutes to read and respond to Question 1, and then 5 minutes to upload their response. After uploading the response to Question 1, students will have 15 minutes to respond to Question 2, with 5 additional minutes to upload their response to Question 2. Once their response to Question 1 has been submitted, they cannot go back to it.

Question 1 will cover Arrays and/or ArrayLists, Question 2 will cover Methods and Control Structures.

I received this additional information from College Board.

Encourage your students to review their contact information. We're communicating with the AP community primarily by email. To ensure your students are receiving critical information, make sure they log in to My AP to remind themselves of the email address and cell phone number they've asked the College Board to use. If they want, students can change how we contact them. Two days before each exam, students will receive an email with a personalized e-ticket that will include their eight-character AP ID code. If a student still doesn't receive the email, they'll be able to access their e-ticket directly through My AP.

Today's assignment

If you have any doubt whatsoever that you will get a 5 on the AP exam, please keep doing these homework problems, one per day until the exam.

Your assignment for today is:

- Work on H0505 in `HCScix0505.pdf`. Upload your solution into Microsoft teams as soon as you can.

- Checkin at

<div align="center">0505 AP Computer Science Checkin</div>

I gave some feedback to the solutions that were submitted. I will try to do that often.
