

### Information from the College Board

The AP Computer Science A online exam is scheduled for Friday, May 15, at 1:00 PM Pacific Time.

Students will have 25 minutes to read and respond to Question 1, and then 5 minutes to upload their response. After uploading the response to Question 1, students will have 15 minutes to respond to Question 2, with 5 additional minutes to upload their response to Question 2. Once their response to Question 1 has been submitted, they cannot go back to it.

Question 1 will cover Arrays and/or ArrayLists, Question 2 will cover Methods and Control Structures.

- Practice the framework for the actual AP using this exam demo.
- Review the required and recommended resource list.
- Carefully read the AP Testing Guide for 2020.

I have posted a link to the AP Checklist.

Print one of these *for each of your AP's*, and physically fill it out.

### Today's assignment

To my AP Computer Science class,

I know you have AP exams this week. Please try to continue to practice programming, a little bit each day. I will assign practice each day, and if you submit your work either to AP Classroom or Microsoft Teams as appropriate, I will try to give feedback. I'd like you to continue to check in each day to let me know you have read whatever information may be in these "lessons".

Your assignment for today is:

- Complete assignment H0511 in AP Classroom. This seems to be an interesting and pertinent problem.
- 0511 AP Computer Science Checkin
